

## SESSION 31: NEW DATA ON MULTILAYER FLOW MODULATING (MLFM) BARE STENTS IN THE TREATMENT OF ANEURYSMS AND DISSECTIONS

**Moderators:** Frank J. Veith, MD / Edward B. Diethrich, MD

### SESSION 31 SCHEDULE

**2:13 PM - 2:18 PM**

**Update On The Value Of MLFM Uncovered Stents In The Treatment Of Visceral And Popliteal Aneurysms: Do They Shrink: Have Any Ruptured**

**Presenter(s):** **Claudio Rabbia, MD** / **Maria Antonella Ruffino, MD**

**[View Abstract](#)**

**2:19 PM - 2:24 PM**

**Endovascular Treatment Of Complex Thoracic Aortic Aneurysm With Multiple Overlapping Bare Stents Can Decrease Spinal Cord Ischemia (SCI) And Result In Decreased Aneurysm Size: When Is This Treatment Appropriate**

**Presenter(s):** **Qingsheng Lu, MD** / **Zaiping Jing, MD**

**[View Abstract](#)**

**2:25 PM - 2:30 PM**

**Continuing Impressions Of The Value Of MLFM Bare Stents In Treating Complex Aortic Aneurysms**

**Presenter(s):** **Edward B. Diethrich, MD**

**[View Abstract](#)**

**2:31 PM - 2:36 PM**

**Mechanisms Whereby MLFM Bare Stents Could Prevent Aneurysm Rupture: Do They Work**

**Presenter(s):** **Jean-Marc Alsac, MD, PhD**

**[View Abstract](#)**

**2:37 PM - 2:42 PM**

**Brazilian Experience With MLFM Stents In The Treatment Of Aortic Aneurysms**

**Presenter(s):** **Daniel Benitti, MD**

**[View Abstract](#)**

**2:43 PM - 2:48 PM**

**3-Year Results Of The French Registry Of MLFM Stents In The Treatment Of Thoracic And Abdominal Complex Aortic Aneurysms**

**Presenter(s):** **Claude D. Vaislic, MD**

**[View Abstract](#)**
